

" Because the Pro-Cure has the new airflow and hood system, I was confident that this dryer will not let us down. Knowing what we can expect from Adelco makes the decision easier. "

----- Zoltan Hajduk Fifth Column

" We are printing every day, seven days a week, If the machine was to break down for a day in a busy period, we're not going to catch up the next day without putting a night shift. So far we've had no breakdowns and no severe issues where we've lost production. "

----- Mike Freeman Nexgen UK

" Adelco keeps up with technology and the temperature keeps constant. Service with Adelco is brilliant, Steve looks after us and always on hand to help out either on the phone or getting stuck in the machines. "

----- Pally Hayre Pally UK

" My first dealings with Adelco were in 1984, when I purchased 4 Precision Oval machines. I was dealing with the founder Alan Smith who started the company and saw the opening in this new industry – T-Shirt printing. Alan was technically excellent and had the key salesman skills, namely customer service and back-up. Since then I have purchased various print machines, dryers, and packing equipment from Adelco. "

----- Graham Ridley Things Fashion UK

" The great thing about working with Leigh and his Adelco team is that they are very open to any suggestions. Moreover, they are very willing to adopt our ideas into their machines even if it gives them a hard time. They are very supportive, especially during after-sales services. Whenever we encounter technical problems, we just give them a call. Kudos to their very accommodating technicians and staffs!

Our experience with Adelco has been exemplary and we're looking for the coming years of doing business with them! "

----- Ganz Philippines

" My experience with Adelco has been fantastic and I would recommend Adelco and their products to anyone. I have known Mark a long time and consider him a friend more than just a business contact. He is someone we can trust, honest to his word, and if he says he is going to do something he does."

----- Jon Lunt TShirt & Sons UK

" Adelco dryers have improved the quality of our prints, due to the dryer's versatility.

The service and technical support I have received from Adelco over the years have been excellent. Always helpful and available on the phone or on the rare occasion the dryer has needed a service. Our dryer is very robust and pretty faultless, other than general wear and tear. I would recommend Adelco and definitely would buy from them in the future."

----- Liam Stewart Vortex Clothing Company Ltd UK

" We have been working with Adelco for the past 7 years and have found them to be the most reliable and efficient solution to all of our Dryer requirements. The products are all superbly constructed and perform optimally in even the most testing environments. We have installed their products all over Southern Africa and the Indian Ocean and can honestly say that their reliability is exceptional! When we have on odd occasions, had small issues, the support and after-sales service of the Adelco Team is fast and very efficient. We would have no hesitation in recommending and selling any of their products to any of our valued Clients. "

----- Steve Harcourt-Wood Rexx Screen & Digital Supplies

" As a Distributor of high-end equipment to the decorated apparel industry where the equipment manufacturers are located on different continents and time zones, Hirsch needs to work with Companies who have fast support and delivery time as well as quality, reliable, state-of-the-art equipment. Adelco fills all these requirements. Their line of re-circulated air dryers have evolved over the years into the best in the Industry.

All the features needed in today's dryers are found in the Ecotex and Duplex dryers. Such as: economic operation, even temperature and air distribution, high velocity air, efficient insulation, modular oven sections and Adelco are continuously adding innovative features to their product line. Our Customers buy several different types of equipment from us for their business. We can't afford to let them down. That is why we work with Adelco. Working with a Family business like Adelco, that has third generation Family members in the Company brings us a lot of pleasure and confidence. "

----- Gavin Kidd Hirsch International USA

" I would recommend any of the Adelco products to anyone, not only for the quality, but definitely for the support offered after the sale. "

----- Rob Dubow Dubow Textile Inc USA

## Corporate Glimpse

## About

## WORLD-CLASS MANUFACTURERS OF PRINT MACHINERY

Established in 1972, Adelco are a world-class manufacturer of Jet Air conveyor drying systems and oval automatic screen printing presses, serving the international garment printing industry. Our worldwide distribution network provides customers with full sales and service support across 6 continents.

With over 4 decades of manufacturing experience, we now employ a team of highly skilled staff, the majority of whom work in manufacturing and research and development and based at our HQ in the UK and our state of the art production facility near Shanghai, China.

Utilising the latest manufacturing techniques and component parts from top rated suppliers such as Siemens and Honeywell, we invest heavily in R & D to ensure that we remain at the forefront of garment printing and curing technology. Adelco have hundreds of dryer and printing installations across the globe, many of which have been operating in daily production for decades and are living proof that Adelco equipment truly is "Designed to survive."

The Adelco Dual has a unique built in extraction system on the infeed and outfeed for a cleaner working environment together with independent exhaust extraction from each conveyor to maximise the curing efficiency for heavily water laden prints in both digital and conventional printing requirements.

15" HDMI touch screen interface

Single internally integrated burner exhaust & extraction.

Advanced balanced airflow system incorporating high powered jets and integrated vacuum hold down on both levels.

Independent temperature control to both levels.

Automatic self tensioning conveyors.

Independent belt speed control to both levels.

# DUAL

## Standard Features

- ★ The Dual dryer from Adelco takes the success of Adelco's Duplex dryer to a new level, adding independent burners and temperature control for each level.
- ★ Compact streamlined design.
- ★ Producing the production of two dryers in a single dryer footprint.

- ★ The world's highest production & most energy efficient dryer.
- ★ The most technically advanced dryer on the market.
- ★ No other dryer on the market will cure digital inks in such high volumes with such a small footprint.

Drying Solutions

*Independent  
time & temperature  
controls on each belt*

# DUAL

**Two Dryers  
One Footprint**

Integral feed and outfeed exhausts remove chemicals and contaminated air from the workplace.

Optional integrated digitally controlled quartz pre-heat for temperature boost at oven entry.

The strongest, toughest and longest lasting conveyor belts on the market.

Auto tension, self-tracking rollers.

Optional VOC (volatile organic compounds) exhaust filtration system.

Air curtain cooling maintains a cool outer skin.

## New Features

- Features new vacuum pull-down that provides exceptional stability of delicate fabrics preventing lifting/flipping of fabrics or transfer paper whilst under high velocity Jet Air curing technology.
- Even higher airflow through the garment for increased airflow penetration leading to faster curing times, and unmatched wash fastness.
- Features new "Eco Extractor + technology" which utilizes more clean filtered air whilst extracting 100% more contaminated air and fumes and still maintaining superior energy efficiency levels.
- New touchscreen interface design, easier to navigate and reacts faster.
- Unique built in hood extraction helps prevent fumes from escaping in to your factory as products enter and exit the oven for a cleaner, more pleasant working environment.
- Fast & easy to clean fine filtration system that can be cleaned even whilst the dryer is running, no replacement filters required.
- Reduced energy consumption for the lowest running costs.
- Integral exhaust connected from top of dryer with easily adjustable exhaust outlet valve.
- Lint filter removable from either side of dryer (no replacement filters required).
- Removable end panels for easy cleaning access.

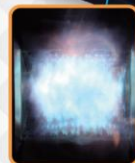

Strongest jet airflow on the market with integrated vacuum hold down integrates new technology in curing and ink penetration.

The worlds easiest maintainable curing system allows pitstop speed service in minutes.

# PRO-CURE ADELCO

## Standard Features

- ★ Five belt widths available.
- ★ Air intake from both sides of oven giving unrivalled heat distribution.
- ★ Ovens are fully modular enabling the exact dryer length to be chosen to suit all curing requirements and be expanded at a later date.
- ★ Triple insulation with air curtain for the coolest exterior skin ever.
- ★ Unique digital automatic belt speed control. Enter the time in minutes and seconds for automatic belt speed adjustment that is precise and repeatable every time.

Highly efficient, direct ultra violet controlled burner system.

Quick release panels for ultra fast serviceability and maintenance.

Sophisticated fold away control panel interface.

Recycles clean filtered air and extracts contaminated air.

Small quick release fine filters for simple / fast maintenance, even whilst dryer is running. No replacement filters required.

# Digi-Cure

A new class in value & technology for the curing of digitally and screen printed textiles.

## Features:

- Economical
- High pressure airflow for best curing penetration.
- Integrated infeed / outfeed extraction.
- Digital HDMI interface.
- Integrated exhaust and fan.
- 80 cm width conveyor belt.
- Full 2.6 metre curing ability.
- Maximum curing ability with minimum effect to fabrics.

## DC Specifications

Model No	DC80E-3
Electrical Supply	19 KW, 3 Phase 220-240V or 380V-415V, 50/60Hz
Belt Speed	50 secs > 10 mins
Time from ambient temp to 160°C(320°F)	Approximately 30 minutes
Exhaust diameter	100mm (4")
Belt Width	80cm (32")
Infeed / outfeed	88 cm (35")
Oven Length	260cm (102")
Overall Dimensions (max)	110cm/ 44" (w) x 128cm/ 50" (h) x 436cm/ 172" (L)

## DC Production

Time	Digital Print (Dark Shirts)	Digital Print (Light Shirts)	Screen Print
1 minute	/	/	300 per hour
2 minutes	/	150 per hour	150 per hour
3 minutes	/	100 per hour	100 per hour
4 minutes	75 per hour	75 per hour	/
5 minutes	60 per hour	/	/
6 minutes	50 per hour	/	/
7 minutes	45 per hour	/	/
8 minutes	40 per hour	/	/

Based on single line of adult size garments. Allowing for one product being placed every 50cm. Production rates will alter depending on product placement and time/ temperature settings chosen for individual curing requirements.

## High Production Conveyor Dryers

- The most Efficient and consistent dryers in the world.
- Reduce your costs and your carbon footprint by investing in proven drying technology.
- Great curing ability.

**EcoTex-S**  
ADVANCED CURING SYSTEMS

## Standard Features

- ★ Five belt widths available.
- ★ Air intake from both sides of oven giving unrivalled heat distribution.
- ★ Enables running costs to be shown.
- ★ Ovens are fully modular enabling the exact dryer length to be chosen to suit all curing requirements and be expanded at a later date.
- ★ Triple insulation with air curtain for the coolest exterior skin ever.
- ★ Reduced energy consumption for the lowest running cost.
- ★ Removable end panels for easy cleaning access.
- ★ Integral exhaust connected from top of dryer with easily adjustable exhaust outlet valve.

Adelco figures taken from consumption tests, averaged per hour at 170 degrees, with exhaust closed. Consumption figures can change according to local environment, production throughput, ink and product types. Adelco reserve the right to revise or review these figures as required.

TOUCH SCREEN CONTROL PANEL

Easy to clean air filters

### Automatic versions:

Each drawer is independently controlled via a membrane touch control panel that automatically open and close from pre-programmed timers. A digital display counts down the preset times of each independent drawer and shows the time remaining. Each cabinet incorporates motor driven drawers, operated & controlled by its own cycle timer, drawers automatically eject for unloading & reloading after the cycle time has counted down.

DDC-3A

DDC-3 + Kornit

### Three Draw Drying Cabinets:

The only compact drying solution that allows a DTG machines to be mounted on top of machine due to triple insulation and recycled heat ensuring a cool outer skin so no excess or residual heat will affect the DTG. Offering the most compact printing & drying solution available on the market.

DDC-3M

DDC-3 + Brother/ EPSON /  
Anajet / Polyprint,Etc

### Manual versions:

Manually operated draws each with independent timers that give an audible & visual alarm when preset draw times are complete. These units offer a great entry level, low cost solution.

DDC-6A

DDC-6M

### Six Draw Drying Cabinets:

For increased production requirements. ergonomically designed for ease of loading all draws. With a unique built in permanent lint filter that can be simply raised above the dryer, by a single person, ensuring no further space is required around the dryer.

### Standard Features

- ★ Digital temperature control.
- ★ Direct heated high velocity airflow.
- ★ Hot air recirculation.
- ★ Motor driven drawers (A versions)
- ★ Permanent lint filter - no replacement filters required.
- ★ Durable powder coated finish.
- ★ Independent digital draw timers
- ★ Variable exhaust control.
- ★ Easy load drawers.

### Oval formats offer a more efficient use of space

Takes up less floor space than comparable carousel based machines and enables greater stability with larger print areas, provides more versatility with multiple flash, cooling and specialty print stations required from the latest, most demanding ecological print solutions.

### Precision in motion

Pallets are securely locked with hardened locators. Indexing to an accuracy of  $\pm 0.02\text{mm}$ .

### Safety

Safety barriers, proximity sensors and safety lasers run the full length of the machine that immediately stop machine if activated. Designed with safety as a priority with worldwide renowned certification.

### Chainless pallet indexing system

Flash cures fit in any position including under print heads.

### High Production

High power servo index, fast and independent screen lift lower and smooth, servo driven print heads enable cycle times in excess of 900 prints per hour.

### Strong and stable structure

Unparalleled support of print heads & pallet arms during print cycle for exceptional print quality and repeatability.

### Characteristics

#### Modular & Expandable

Available in three standard print size formats. The Matrix can be configured for almost any production requirement with an almost infinite no of pallets & print stations.

### Smooth, quiet operation

The Matrix has a unique rail and drive system quality that ensures almost silent operation creating a quiet print shop environment.

Versatile print stations with automatic high lift

Adco's High Speed Digital Hybrid Printer Option

Screen printing

# ADELCO

## Characteristics

### 1. Modular & Expandable

Available in three standard print size formats. The Ellipse can be configured for almost any production requirement up to 52 stations.

### 2. High Production

High power servo index, fast and independent screen lift lower and smooth, servo driven print heads enable cycle times of 700+ prints per hour.

### 3. Precision in motion

Pallets are securely locked front & back and index to an accuracy of +/- 0.02 mm. A unique, floating pallet design ensures lifetime registration.

### 4. Smooth, Quiet operation

The Ellipse has a unique rail and drive system quality that ensures almost silent operation that will not spoil the print shop environment.

### 5. Oval Formats offer a more efficient use of space

Takes up less floor space than comparable carousel based machines and enables greater stability with larger print areas. Provides more versatility with multiple flash, cooling and speciality print stations required from the latest, most demanding ecological print solutions.

**ellipse**

Automatic oval textile printing press

### 6. Strong and stable Structure

Unparalleled support of print heads & pallet arms during print cycle for exceptional print quality and repeatability.

### 7. Safety

Proximity sensors and safety lasers run the full length of the machine that immediately stop machine if activated. Easy accessible safety doors allow operator quick and safe access inside machine. Designed with safety as a priority with worldwide renowned certification.

### 8. Maintenance

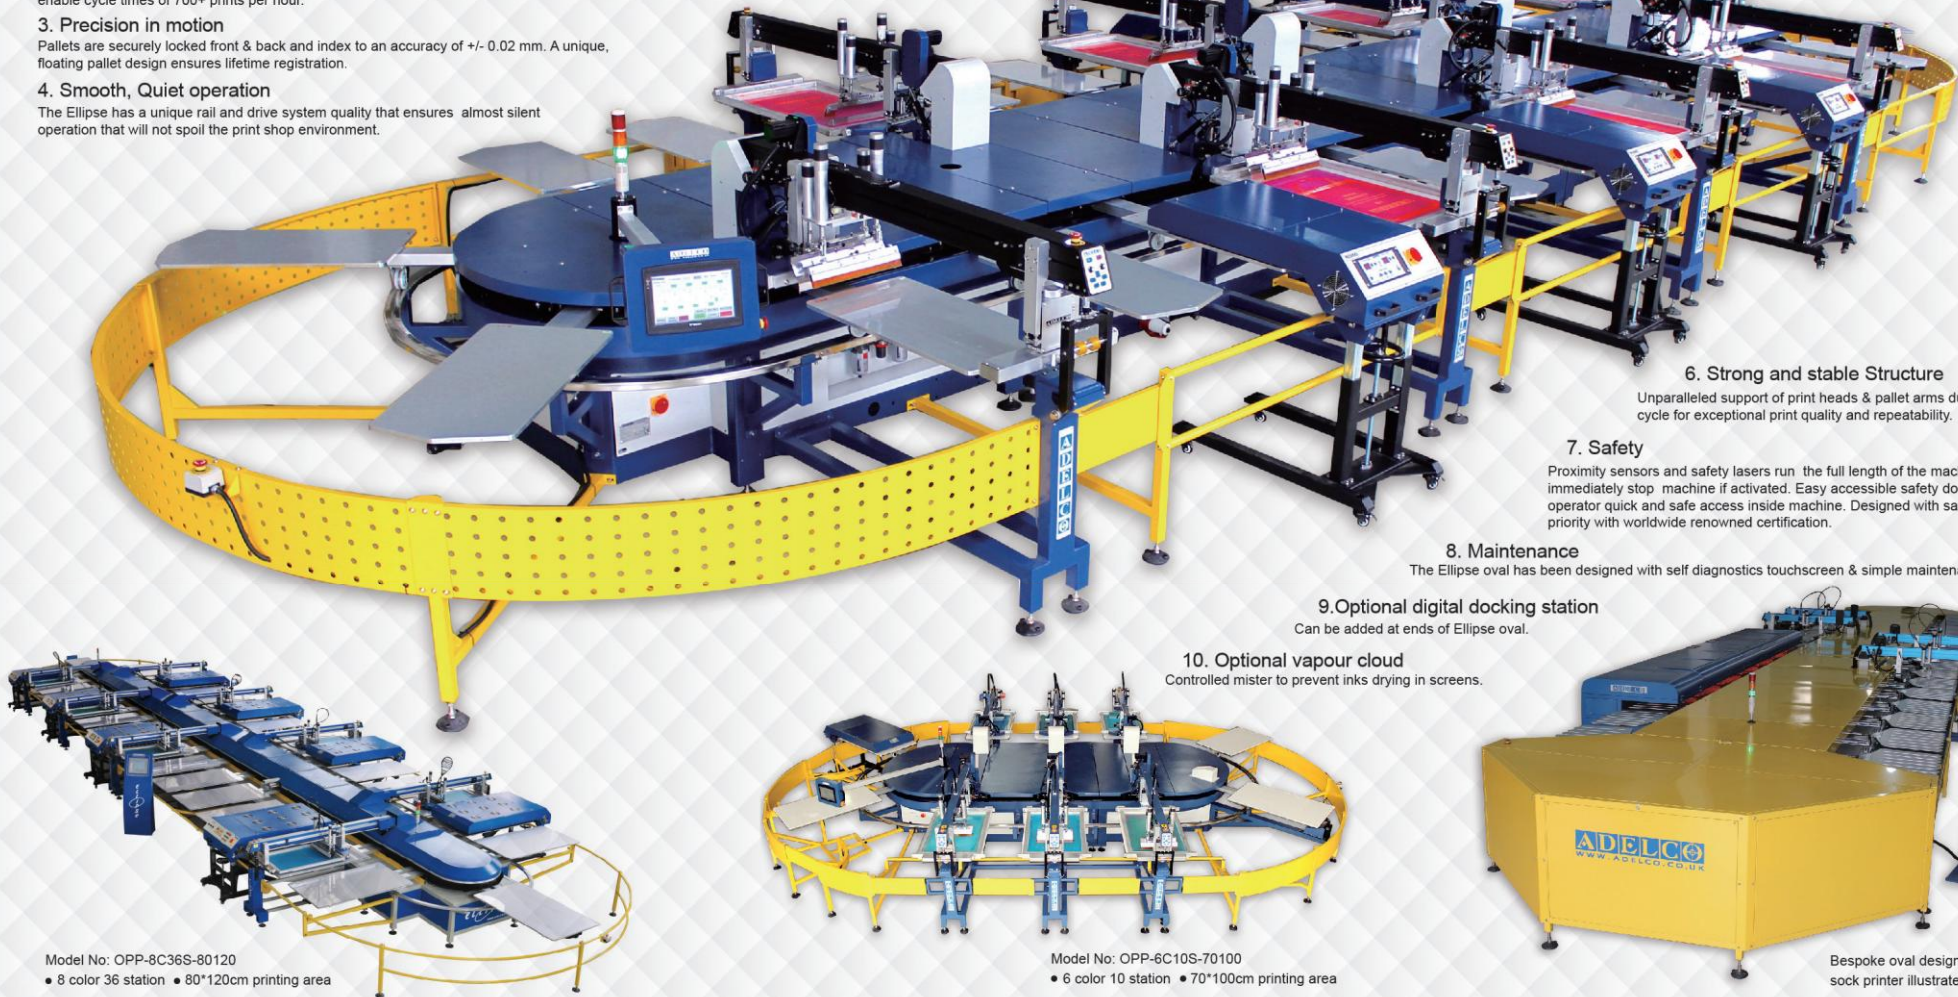

The Ellipse oval has been designed with self diagnostics touchscreen & simple maintenance.

### 9. Optional digital docking station

Can be added at ends of Ellipse oval.

### 10. Optional vapour cloud

Controlled mister to prevent inks drying in screens.

## Features:

- Pin-point registration of  $\pm 0.02\text{mm}$ , designed for the most challenging screen & digital printing.
- Optional built in LED lights integrated into the print heads provide unmatched visibility of screens during set up and production.
- Three-way micro screen adjustment for easy set up.
- Standard solid high-grade lightweight CNC aluminium pallets, with unique tool free quick release system.
- Quick lock, tool free squeegees and flood bars.
- Individual horizontal screen lift at each print head – provides maximum ink stability, better screen visibility and faster load times as pallets remain at a constant height.
- Rapid lock high-lift screen system provides easy screen cleaning access and loading of flashes into any print head position.
- Tool free squeegee angle adjustment.
- Twin chopper squeegee pressure cylinders provide tool free control of print pressures even with the most viscous ink systems.
- Servo driven main drive gives a fast, smooth index providing speeds in excess of 1000 pieces per hour.
- PLC controlled with HD touchscreen interface incorporating advanced features, simple set up & full machine self diagnosis.
- Auto start, stop, sample and rotate flash programmes.
- CNC machined aluminium print arms provide unmatched pallet level tolerances.
- Strong & light custom extruded aluminium print heads and pallet arms gives the perfect strength to weight ratio.
- AC servo motors drive the print head for high torque, fast smooth print strokes even at the slowest speed.
- Load delay footpedal.
- Various high speed digital hybrid options.

Wide range of flash cure options.

**Cyclone carousel is able to run pin point accuracy at extreme speeds while still offering incredible value.**

Tool free quick release pallets.

Advanced touchscreen control system with full fault finding diagnosis.

Optional LED lights built into the print station, provide unmatched visibility of screens during set up and production.

Adelco's Hybrid Digital system is an add on high speed digital station specifically designed to work in conjunction with our automatic screen printing presses. Combining the advantages of both screen & digital printing to create the most innovative garment decoration.

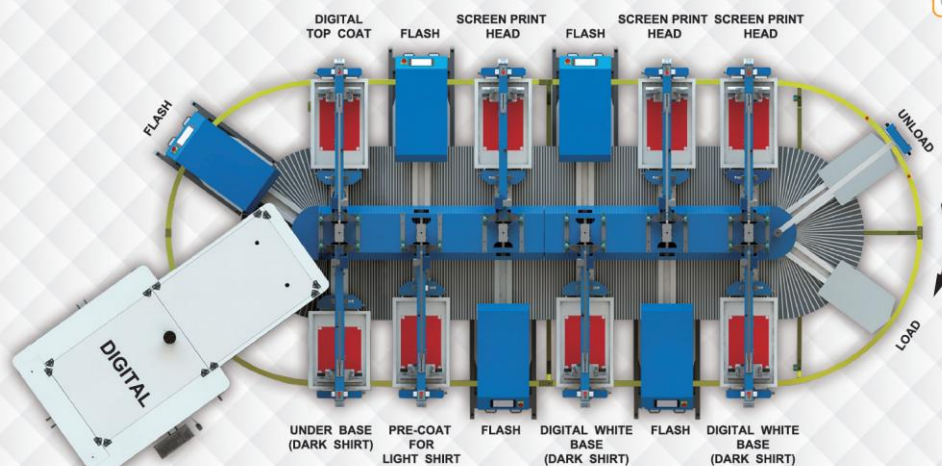

Utilising environmentally friendly inks, Adelco's Hybrid Digital can produce A4 format printed substrates in excess of 300 units per hour. Used in conjunction with a screen printed base providing the lowest ink cost per print.

Using industrial grade spectra starfire print heads for maximum stability, durability and reliability, Adelco's Hybrid Digital solution can achieve complex designs. And can be set up and printed quickly without the need of costly separations or screen manufacture.

Combine digital print, spot colour, high build, glitter, puff, flock, foil and other special effect prints all on one print machine.

- A4 print up to 300 per hour
- Softest hand feel on the market
- Worldwide support network

### Digital Hybrid Specifications

Digital Printer Model	AD-7070-4 AD-7070-6
Color	4/6 color
Printing Resolution	600x800dpi, 600x1000dpi, 600x1200dpi
Highest Printing Resolution	600x2400dpi
Printing Fabric	cotton, linen, silk, nylon, polyester, viscose, etc.
Max Printing Area	700x700mm
Max Speed	350 pcs/h
Ink Type	Pigment ink
Max Medium Thickness	25mm
Ink Supply System	Auto negative pressure ink supply system
Ink Capacity	5L/color

RIP Software	Photoprint, Neostampa
Printhead Maintenance	Self-cleaning Auto Ink Wiping System Built in Humidifier Built in Ink Recirculation system
Power Supply	220VAC, single phase, 50/60HZ
Work Environment	Temperature 25-28°C, Humidity 55%-65%
Print Heads	4 COLOR - 12 x 512 nozzle Fujifilm StarFire print head modules 6 COLOR - 16 x 512 nozzle Fujifilm StarFire print head modules
Weight of machine and packaging	1,800kg
Size of machine packaging	4000 x 2380 x 2300mm

ADELCO produce a wide range of high specification flash cures & table drying units to suit every application. Utilising the latest state of the art technology in quartz infra red lamps, unique hot air modules & cost efficient long wave infra red emitters. We provide a solution for all printing requirements.

#### Features:

- Rapid cure, medium wave quartz lamps.
- Variable power output.
- Variable process time.
- Three independent zones.
- Mains isolator.
- Universally adjustable to interface with most automatic and manual carousels.
- Input from pallet movement sensor or 7 pin socket which interfaces with MHM print machines.

Wide range of  
flash cure units

## FLASH CURE SPECIFICATIONS

### Oval Flash Cures:

MODEL	COMPATIBLE MACHINES	CURING AREA	KW (380 VOLT)	STAND MOUNTED
OFC-5070	Stand mounted, three zones, automatic, quartz	50 x 70cm (21X27")	18	Yes
OFC-4560	Stand mounted, three zones, automatic, quartz	45 x 60cm (18X23")	13.5	Yes
OFC-6080	Stand mounted, three zones, automatic, quartz	60 x 80cm (23X31")	18	Yes
OFC-70100	Stand mounted, three zones, automatic, quartz	70 x 100cm (27X40")	22.5	Yes

MODEL		COMPATIBLE MACHINES	CURING AREA	KW (380 VOLT)	STAND MOUNTED
MTX-4560	-3	M&R, TAS, Schenk etc	45 x 60cm (18X23")	13.5	Yes
	-9				
MTX-5070	-3	M&R, TAS, Schenk etc	50 x 70cm (21X27")	18	Yes
	-9				
MTX-6080	-3	M&R, TAS, Schenk etc	60 x 80cm (23X31")	18	Yes
	-9				
MTX-70100	-3	M&R, TAS, Schenk etc	70 x 100cm (27X40")	22.5	Yes
	-9				

### Automatic Quartz Flash Cure Units:

MODEL	COMPATIBLE MACHINES	CURING AREA	KW (380 VOLT)	STAND MOUNTED
AFQ-4050	MHM E- TYPE	40 x 50cm (15X19")	9	-
AFQ-4560	MHM S- Type, Schenk, Hebbeker	45 x 60cm (18X23")	13.5	-
AFQ-5070	MHM 3000/4000 Schenk, Hebbeker	50 x 70cm (21X27")	18	-
AFQ-70100	JUMBO MHM Hebbeker 3000/4000 Schenk, Hebbeker	70 x 100cm (27X40")	22.5	-
AFQ-80110	Super Jumbo MHM	80 x 110cm (31X43")	22.5	-
AMR-4560	M&R, TAS, Schenk etc	45 x 55cm (18"X21")	13.5	Yes
AMR-5070	M&R, TAS, Schenk etc	50 x 70cm (21X27")	18	Yes
AMR-70100	M&R, TAS, Schenk etc	70 x 100cm (27X40")	22.5	Yes

### Manual Flash Cures, Stand Mounted:

MODEL	CURING TYPE	COMPATIBLE MACHINES	CURING AREA
AMF-4560	Long Wave Infra Red	Manual Carousels	45x60cm
AMF-5070	Long Wave Infra Red	Manual Carousels	50x70cm
AMR-4560	Automatic, Quartz	Manual Carousels	45x60cm
AMR-5070	Automatic, Quartz	Manual Carousels	50x70cm

### Jet Air Flash Cures:

Moving unit Uses Hot air for improved drying of water based inks and reduced dye sublimation on polyester materials

MODEL	COMPATIBLE MACHINES	CURING AREA
JFC-4555	Mounted in print head, driven by squeegee head & interfaces with printer controls	45x55cm (18 "X27")
JFC-5070	Mounted in print head, driven by squeegee head & interfaces with printer controls	50x70cm (21 "X27")
JFC-4555SD	Stand mounted with independant Hot Air Module drive & Pallet sensor	45x55cm (18 "X21")
JFC-5070SD	Stand mounted with independant Hot Air Module drive & Pallet sensor	50x70cm (21 "X27")

## RANGE OF PROFESSIONAL SERIES MANUAL CAROUSEL TEXTILE PRINTERS

Adelco have combined tried and tested features with exceptional build quality to produce a range of Carousels that offer the best features at surprisingly low price.

AMC-8C-8

### Carousel Specifications

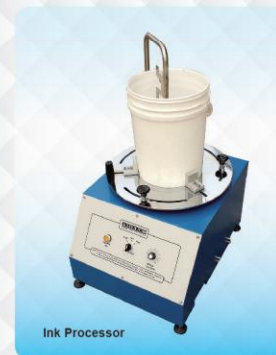

Model	Description	Diameter	Crate size (LxWxH)
AMC-4C /4S	4 colour,4 station	2870mm	1.45 x 1.17 x 1.52 meters
AMC-6C /4S	6 colour,4 station	2870mm	1.45 x 1.31 x 1.52 meters
AMC-6C /6S	6 colour,6 station	2870mm	1.45 x 1.31 x 1.52 meters
AMC-8C /6S	8 colour,6 station	3200mm	1.51 x 1.45 x 1.52 meters
AMC-8C /8S	8 colour,8 station	3200mm	1.51 x 1.45 x 1.52 meters
AMC-10C /8S	10 colour,8 station	3450mm	1.60 x 1.60 x 1.52 meters

### Features:

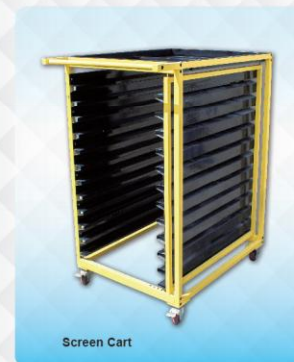

- Cast and machined aluminium print heads.
- Independent print head control including responsive micro screen registration adjustment, screen angle, screen height etc.
- Pre levelled print stations.
- Accurate bearing, head to pallet registration.
- Excellent value MDF or heat resistant glass pallet options.
- 4,6,8 and 10 colour models.
- Standard single head down models or all head down models for multiple print operator use.
- New headless model-replaces manual print tables used in textile piece printing.
- Easy self assembly packaging.
