Built in humidifier and ink recirculation system.

Environmentally friendly inks

adelco
**AD HYBRID
DIGITAL**

A high-speed digital textile printer that works seamlessly with our automatic screen printing presses with the lowest ink cost per print.

Adelco's Hybrid Digital system is an add-on High Speed Digital Station designed to work in conjunction with the Adelco Automatic Screen Printing Presses, the Matrix Oval and Ellipse Oval. This Hybrid digital system combines the advantages of both screen and digital printing to create even the most innovative garment decoration.

Utilising environmentally friendly inks, Adelco's AD Hybrid Digital can produce A4 format printed substrates in excess of 300 units per hour, and when used in conjunction with a screen printed base providing the lowest ink cost per print.

Using industrial grade Spectra StarFire print heads for maximum stability, durability and reliability, Adelco's AD Hybrid Digital solution can achieve complex designs. The system is quick to set up and prints quickly without the need for costly separations or screen manufacture.

Combine digital print, spot colour, high build, glitter, puff, flock, foil and other special effect prints all on one print machine. The Adelco AD Hybrid has a built in humidifier and ink recirculation system.

A digital add-on for the Matrix and Ellipse.

The AD Hybrid Digital and the Matrix Oval

Excellent – practical sales advise, good technical back up. They have made the process of entering the digital market seriously so much easier. They are professional with excellent customer service. I would recommend them without a doubt.
